

2012 CJSA Convention

Technical Training Certificate

The main goal for youth soccer coaches should be to ensure that they give their players the tools required for them to succeed, and in doing so provide a safe and fun environment. The technical ability of our players at the younger ages will help determine how successful they become as they mature through their soccer journeys. It is important that coaches understand how to analyze and address technique. Analyzing and having an eye for detail is not an easy task, this skill is critical to the growth and development of not only the player but the coaches too!!

CJSA is pleased to announce that we have secured the services of top level instructors for this course:

Geoffrey Regan- Select Physical Therapy

Jeff Bookman- Chelsea FC, Head of International Development, Inside Soccer featured Clinician

Dave Clarke- Head Coach, Quinnipiac Women's Soccer, USSF National Instruction Staff

Ciara McCormack- Former professional player, Vancouver Whitecaps, Republic of Ireland National Team

All sessions will be held in the ballroom of the Farmington Marriott on January 28, 2012. The focus of this year's certificate will be technical training for boys and girls from ages ten to fourteen. Topics will include:

- Concussion- What you need to know!!
- Dribbling/ Running with the ball
- Passing
- Receiving (encouraging a positive 1st touch)
- Individual Attacking & Defending
- Teaching Technique- The Analytical Eye

Clinic topics and clinicians are subject to change. All sessions will include rationale for topic emphasis for these age groups; goals and objectives of the session; various methodologies to achieve the objectives.

Exercise selection, progression, and each exercise's relation to the real game will be explored during the session.
